

K-Love radio station has been a tremendous asset to me during the day
It is a station I trust and play it in my home and on the road
It is an important part of my day, everyday
If it were to be replaced by an LPFM station I would be very upset
and would have a very hard time with adjusting to life with K-Love
K-Love is in the public interest because it encourages people, it is
uplifting, and it is a station the whole family can listen to. It
also sends a very positive message to the public that encourages and
uplifts.
It has been a vital part of our community and would be a tremendous
loss if taken away.
Please do not replace it with an LPFM. It would be a terrible impact
